Mayor Baird and Members of City Council:

I am pleased to present the 2018 Annual Budget and the 2018 – 2022 Capital Improvement Program for your review and consideration. The budget, as presented, provides sufficient resources to continue the excellent services expected by City residents.

The property tax continues to be the primary funding source for the general operations of the City (police, fire, and administration) and capital improvements. The property tax has proven to be a stable revenue source for the City. In 2017 the Greene County Auditor performed the triennial revaluation and property values for the City increased over seven percent. The new property tax values will be the highest in the City since 2010. However, due to the property tax system in the state of Ohio, this will not mean a seven percent increase in property tax revenue for the City. To the contrary, the effective millage rate for voted property tax levies will actually decrease.

In November 2017 the City asked the voters of Bellbrook to approve an additional three mill general fund property tax levy. This levy was needed to maintain the current level of public safety services expected by the residents. It was also needed to mitigate the structural deficit caused, in large part, by the cuts in state revenue discussed below. By a margin of 911-875, the voters of Bellbrook rejected this additional levy request.

Historically, the City relied on revenue from the state of Ohio to help fund the budget. Unfortunately, this revenue has significantly decreased over the last several years. Revenue from the Local Government Fund has decreased from the \$208,000 received in 2008 to the \$88,000 received in 2017. The Estate Tax was eliminated by the State of Ohio. From 2007 until 2013, the City received an average of \$110,000 per year from the Estate Tax. Certain other State generated revenue, such as gasoline taxes and motor vehicle registration fees, have remained a stable source of revenue for the City, but have not increased with inflation.

Operating costs continue to increase. However, several changes have been made to the operations of the City to mitigate cost increases. While increasing costs are not unexpected, the City will continue to make efforts to control costs when possible. The City strives to balance costs with the service expectations of the residents.

For the seventh consecutive year, the City is anticipating no increase to the water rates. Revenue in the Water Fund has continued to cover operating, debt and capital expenses. Several new residential developments that are on the City's water system will allow this trend to continue for the foreseeable future. Rates charged for waste collection will also remain unchanged for 2018. By controlling water and waste collection rates, the City has saved residents approximately \$82 per year.

The City continues to have a steady and conservative capital improvement program. In 2018, over \$680,000 of City funds is budgeted for capital improvements. This investment of local funding is leveraged by the usage of grants whenever possible. For 2018, \$890,000 of grant and loan funding will be used to supplement the capital improvement program.

The 2018 budget includes funding for the first year (2018) of the Five-Year Capital Improvement Program. The projects in years two through five (2019-2022) are subject to annual reevaluation and reprioritization by staff and Council. These future years serve as a guideline for future priorities.

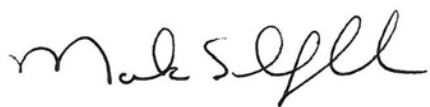

Major capital projects included for 2018 include the annual street program, the completion of the Upper Hillside water main replacement project and vehicles and equipment for the various departments.

At the beginning of 2018, it is estimated that the City will have an unencumbered fund balance of the property tax supported funds of approximately \$2.61 million. By the end of 2018, this unencumbered balance is expected to be \$2.39 million. In future years, this balance is expected to continue to decrease as the impact of the State budget cuts and the continued increase of operating costs is fully realized.

The City will continue to provide excellent services to the residents at the lowest cost possible. These services do come at a cost. Unlike most cities in Ohio that have an income tax, the primary revenue source for Bellbrook does not grow as the economy strengthens. Therefore, the City will likely ask the residents of Bellbrook for additional property tax funding in 2018.

Once again, it is my pleasure to present the 2018 Annual Budget and the 2018-2022 Capital Improvement Program to you. As presented, this budget meets the City's mission to "provide effective, courteous and fiscally responsible municipal services."

Sincerely,

Mark Schlagheck
City Manager

This fund is used as a revolving fund for contractors or developers who are doing work in the public right-of-way and are required to deposit money for inspection of or construction of public improvements. Once the improvements are done the deposits are returned. If the work is not done, the deposits are used to complete the work.
